Market Timing: Merrill's policies prohibit mutual fund market timing, which involves the purchase and sale of mutual fund shares within short periods of time with the intention of capturing short-term profits resulting from market volatility. Market timing may result in lower returns for long-term fund shareholders because market timers capture short-term gains that would otherwise pass to all shareholders and due to increased transaction costs and fewer assets for investment due to the need to retain cash to satisfy redemptions.

Sales Charge Discounts or Waivers: Many funds offer various sales charge discounts or waivers depending on the terms of the prospectus and/or statement of additional information. You should consult a fund's prospectus and/or statement of additional information to determine whether you may qualify for a discount or waiver. Notify your Financial Advisor, Financial Solutions Advisor or Investment Center representative if you believe you qualify for any of these or any other discounts or waivers. Please contact your Financial Advisor, Financial Solutions Advisor or Investment Center representative for further information on available sales charge discounts and waivers.

Bank of America Merrill Lynch Global Research publishes research reports and ratings ("Research Ratings") regarding a select universe of ETFs and ETNs (collectively, "ETPs"). Research Ratings on ETPs are intended to assess the potential for outperformance of ETP peers in the same coverage category. Bank of America Merrill Lynch Global Research and other business areas, including CIO, apply different methodologies in their review of ETPs, and may arrive at different or inconsistent conclusions with respect to one or more ETPs. Neither the CIO review process nor the internal business review performed by product teams will rely on or otherwise use the Research Ratings on ETPs as an input or factor; and the CIO review process and product team's internal business review will determine an ETP's inclusion, status, and availability for solicitation through the Global Wealth & Investment Management area of MLPF&S and its affiliates.

For Credit Ratings: S&P and Moody's provide credit ratings on the credit quality of certain bonds and preferred stocks. For a credit enhanced security, Moody's and S&P publish and provide third party vendors the higher of the rating on the credit enhancer (guarantor) or the stand alone rating on the underlying security.

Additional Information

We will route your equity and option orders to market centers consistent with our duty of best execution.

Except for certain custodial accounts, we hold bonds and preferred stocks in bulk segregation. If there is a partial call for those securities, securities will be randomly selected from those held in bulk. The probability of your holdings being selected is proportional to the total number of customer holdings of that particular security that we hold.

This statement serves as a confirmation of certain transactions during the period permitted to be reported periodically. Additional information, including the time of execution for any trade, is available upon written request.

In accordance with applicable law, rules and regulations, your free credit balance is not segregated and we can use these funds in our business. Your free credit balance is the amount of funds payable upon your demand. You have the right to receive, in the normal course of business, any free credit balance and any fully paid securities to which you are entitled, subject to any obligations you owe in any of your accounts.

For clients enrolled in a sweep program, the balance in any bank deposit account or shares of any money market mutual fund in which you have a beneficial interest can be withdrawn or liquidated on your order and the proceeds returned to your securities account or remitted to you.

You will have the right to vote full shares and we may solicit voting instructions concerning these full shares in your account. Voting shares in your account will be governed by the then current rules and policies of FINRA and the Securities Exchange Commission or other applicable exchanges or regulatory bodies.

All transactions are subject to the constitution, rules, regulations, customs, usages, rulings and interpretations of the exchange or market, and its clearinghouse, if any, where the transactions are executed, and if not executed on any exchange, FINRA.

Fixed Income Securities

Values on your statement generally are based on estimates obtained from various sources and in certain cases only from affiliates. These values assume standard market conditions, are not firm bids or offers and may vary from prices achieved in actual transactions, especially for thinly traded securities. These values are generally for transactions of \$1 million or more, which often reflect more favorable pricing than transactions in smaller amounts. You may pay more than these values if you purchase smaller amounts of securities, or receive less if you sell smaller amounts of securities.

Prices and Valuations

While we believe our pricing information to be reliable, we cannot guarantee its accuracy. Pricing information provided for certain thinly traded securities may be stale.

Values on your statement generally are based on estimates obtained from various sources and in certain cases only from affiliates.

Investments such as direct participation program securities (e.g., partnerships, limited liability companies, and real estate trusts which are not listed on any exchange), and alternative investments (e.g., commodity pools, private equity funds, private debit funds, and hedge funds) are generally illiquid investments. No formal trading market exists for these securities and their current values will likely be different from the purchase price. Unless otherwise indicated, and except for certain alternative investment funds sponsored by affiliates of MLPF&S, the value shown on this statement for an investment in these securities has been provided by the management, administrator or sponsor of each program or a third-party vendor, in each case without independent verification by MLPF&S. The values shown may not reflect actual market value or be realized upon a sale. If an estimated value is not provided, accurate valuation information is not available.

Cost Data/Realized Capital Gains & Losses

Cost Data and Realized Capital Gains/Losses are provided in this statement for informational purposes only. Please review for accuracy. Merrill Lynch is not responsible for omitted or restated data. Please consult your tax advisor to determine the tax consequences of your securities transactions. Your statement is not an official accounting of gains/losses. Please refer to your records, trade confirmations, and your Consolidated Tax Reporting Statement (Form 1099).

Insurance Policies and Annuity Contracts

Information is based on data from the issuing insurer. We are not responsible for the calculation of policy/contract values. Insurance policies and annuity contracts are generally not held in your MLPF&S account. If we, as custodian or trustee, hold an annuity contract that is a security, SIPC and excess-SIPC coverage apply.

Estimated Annual Income and Current Yield

Estimated Annual Income and Current Yield for certain types of securities could include a return of principal or capital gains in which case the Estimated Annual Income and Current Yield would be overstated. Estimated Annual Income and Current Yield are estimates and the actual income and yield might be lower or higher than the estimated amounts. Current Yield is based upon Estimated Annual Income and the current price of the security and will fluctuate.

Market-Linked Investments (MLI)

MLIs are debt securities or Certificates of Deposit linked to an underlying reference asset. They are reflected on your statement by their underlying reference asset – equities (e.g., stocks, ETFs, equity indices), alternative investments (e.g., commodities, currencies), or fixed income (e.g., interest rates). This classification method illustrates your asset allocation.
